AGNEW, RALPH PALMER. On summability of double sequences, . 648
ALBERT, A. ADRIAN. On the construction of cyclic algebras with a given exponent, ... 1
BATEN, WILLIAM DOWELL. A remainder of the Euler-MacLaurin summation formula in two independent variables, . . . 265
BECKENBACH, E. F. Minimal surfaces of uniplanar derivation, . 718
BELL, E. T. A new type of arithmetical invariance, . . . 35
BERNSTEIN, B. A. Note on the condition that a Boolean equation have a unique solution, ... 417
BLUMENTHAL, LEONARD M. A complete characterization of proper pseudo d-cyclic sets of points, ... 387
BLUMENTHAL, LEONARD M. Concerning regular pseudo d-cyclic sets, 729
BOSOCO, MIGUEL A. Fourier developments for certain pseudo-periodic functions in two variables, ... 242
BROWN, ARTHUR B. Topological invariance of sub-complexes of singularities, ... 117
BROWN, ARTHUR B. On Morse's duality relations for manifolds, . 692
BUSH, LAURENS EARLE. On the equivalence of the decompositions of an algebra with respect to a principal idempotent, . . . 419
CARLITZ, LEONARD. The arithmetic of polynomials in a Galois field, . 39
CARLITZ, LEONARD. On arrays of numbers, ... 739
CARROLL, EVELYN TERESA. Systems of involutorial birational transformations contained multiply in special linear line complexes, 707
COBLE, ARTHUR B. Hyperelliptic functions and irrational binary invariants, ... 425
CRAIG, ALLEN T. On the distributions of certain statistics, . . 353
CURRY, H. B. Some additions to the theory of combinators, . . 551
DYE, L. A. and SHARPE, F. R. The quartic space involutorial transformations with a double conic, ... 499
EMCH, ARNOLD. The symmetric (n, n)-correspondence and some geometric applications, ... 285
EVANS, GRIFFITH C. Complements of potential theory, . . . 213
FARRELL, O. J. On approximation to a mapping function by polynomials, ... 571
FULTON, D. G. and RAINICH, G. Y. Generalizations to higher dimensions of the Cauchy integral formula, ... 235
GERONIMUS, J. On a problem of M. J. Shohat, ... 85
HAVILAND, E. K. A note on the convergence of the successive approximations to the solution of an ordinary differential equation, . 632
